Important Notes for Lecturer:

The supervisor from the faculty continuously monitors a student undergoing Industrial Training by assessing two Log Books submitted electronically by the student (Table 1). This evaluation form is used for both the assessments. The supervisor from the faculty assesses the student, gives marks and provides feedback based on the comments of the supervisor from the company.

Table 1: Submission of Log Books

| | First Log Book | Second Log Book |
|--|--|---|
| Contents expected | Tasks undertaken from Week 1 to Week 8 | Tasks undertaken from Week 9 to Week 16 |
| Student to submit electronically | 5pm Friday Week 9 | 5pm Friday Week 17 |
| Lecturer to give feedback (including grade) via email | By Week 11 | By Week 19 |

Zero mark should be given for:

1. Log Book submitted after the stipulated deadline.
2. Log Book not signed by the supervisor from the company.
3. Log Book not following the required format (WXES 2193 Log Book Format.docx).

The student should consult the supervisor from the faculty if the company requires the use of a log book of different format.
